MEMO

TO: Recipients of St. Baldrick’s funds through the COG
FROM: Becky Chapman Weaver, Chief Philanthropy Officer
DATE: April 26, 2012
RE: Enclosed check from St. Baldrick’s Foundation grant

Enclosed you will find a check representing your share of the St. Baldrick’s Foundation’s 2011 grant of $5,767,800 to the Children’s Oncology Group. This check represents your institution’s supplemental reimbursement for enrollments between March 1, 2011 and February 29, 2012, as well as payment for the high-impact initiative, if your institution participated in it. We are pleased to continue supporting your institution’s participation in COG clinical trials, and excited to see the results of the high-impact initiative.

By the time you receive this, more than $25 million will have been raised at St. Baldrick’s events in 2012. Even though March is still our busiest season, we are raising funds year-round, so we are confident about reaching our goal of $30 million for the year.

The St. Baldrick’s Foundation is truly a volunteer-driven organization – and many of you are among those volunteers, so we thank you. Whether you’ve shaved your head, inspired the crowd by speaking at an event, referred “honored kids” to us, reviewed grant applications, or simply offered advice, we appreciate your participation.

If you haven’t yet been involved in St. Baldrick’s – or if you have feedback for us – we welcome you to give us a call or email Grants@StBaldricks.org.

Please share this letter and a copy of the check with all of the following: the PI for your COG participation; the head of your pediatric oncology department; and your grants & contracts, philanthropy, and public relations staff. (When St. Baldrick’s volunteers contact your institution to ask whether your research is supported by St. Baldrick’s, we want everyone to know the answer is yes! This will help us support your work in a bigger way.) Thank you!

St. Baldrick's Foundation Supplemental Reimbursement Funding: 2011

On behalf of COG, the Children's Hospital of Philadelphia will be issuing a work order for the supplemental reimbursement from the St. Baldrick's Foundation based on enrollments and other activities associated with specific protocols (see details below). Sites will receive payment upon execution of the work order.

PCR Supplemental Reimbursement

For enrollments between March 1, 2011 and February 29, 2012: Supplemental reimbursement for institutional per patient accrual to COG therapeutic trials at a rate of $1,000 per case and non-therapeutic trials at $100 per case. Also awarded supplemental PCR for the COG Long-term Follow protocol ALTE05N1 at $200 per case.

High Impact Initiative

All COG Institutions, including CCOP institutions, will be awarded a total of $10,000 if they had ALL of the four protocols listed below APPROVED by their IRB by December 15, 2011. Institutions that received approval of these studies prior to this announcement were eligible to receive this supplemental payment.

AALL07P1, A Phase II Pilot Trial of Bortezomib (PS-341, Velcade, IND# 58,443) in Combination with Intensive Re-Induction Therapy for Children with Relapsed Acute Lymphoblastic Leukemia (ALL) and Lymphoblastic Lymphoma (LL)

ARST0921, A Randomized Phase II Trial of Bevacizumab (IND# 7921, Avastin) and Temsirolimus (IND# 61010, Torisel) in Combination with Intravenous Vinorelbine and Cyclophosphamide in Patients with Recurrent/Refractory Rhabdomyosarcoma

AAML08B1, Biology Study of Transient Myeloproliferative Disorder (TMD) in Children with Down Syndrome (DS)

ACCL0933, A Randomized Open-Label Trial of Caspofungin versus Fluconazole to Prevent Invasive Fungal Infections in Children Undergoing Chemotherapy for Acute Myeloid Leukemia (AML)
WORK ORDER TO THE
MASTER SUBAWARD AGREEMENT FOR NON-INDUSTRY FUNDING SOURCES
BETWEEN

THE CHILDREN'S HOSPITAL OF PHILADELPHIA,
CONTRACTING ON BEHALF OF THE CHILDREN'S ONCOLOGY GROUP
("CHOP")

And

CASE WESTERN RESERVE UNIVERSITY ("SUBCONTRACTEE")

ST. BALDRICK'S FOUNDATION SUPPLEMENTAL REIMBURSEMENT

WHEREAS, CHOP, on behalf of COG, desires to enter into this Work Order with
SUBCONTRACTEE for the payment of supplemental funding provided by the St.
Baldrick's Foundation directly associated with the COG research protocols;

NOW, THEREFORE, effective as of the 26th day of April, 2012, in consideration
of the premises and the mutual covenants hereinafter contained, the Parties agree as
follows:

1. STATEMENT OF WORK

The SUBCONTRACTEE agrees to conduct and carry out in a professional and
competent manner any COG research protocols in which SUBCONTRACTEE
participates by virtue of its membership in COG.

2. BUDGET AND PAYMENT

CHOP, on behalf of COG, shall pay the SUBCONTRACTEE reimbursement
supplements associated with the COG research protocols that SUBCONTRACTEE
conducts in accordance with the rates and timeframes prescribed by COG Operation
Group and posted on the COG member website: https://members.childrensoncologygroup.org/. These are based on enrollments or
other activities associated with specific protocols.

3. PUBLICATION

SUBCONTRACTEE shall have the right to publish the results of and disseminate
information pertaining to the Data generated as a result of SUBCONTRACTEE's
participation in a COG research protocol, subject to COG membership publication
requirements. All publications, reports and other materials resulting from the projects conducted under this Work Order will acknowledge St. Baldrick’s Foundation support and should use a statement to the effect:

"This project was supported by funds from the St. Baldrick’s Foundation and its contents are solely the responsibility of the authors and do not necessarily represent the official views of the COG Foundation or the St. Baldrick’s Foundation."

Disposition of any copyrights or any copyrightable material will be determined by the policy of the SUBCONTRACTEE. Copies of all copyrighted or copyrightable materials will be provided to CHOP. Copyrighted or copyrightable materials generated from the grant will be owned by COG.

(The rest of this page left intentionally blank)
IN WITNESS WHEREOF, the parties have executed this Work Order effective as of the day and year of the latter signature.

Title: Principal Investigator

Date: 10/21/2012
About the St. Baldrick’s Foundation

The St. Baldrick’s Foundation is a nonprofit organization raising funds for childhood cancer research. The primary activity of the Foundation is the organization of events at which volunteers are shaved bald in solidarity with children who often lose their hair during cancer treatment. “Shavees” collect pledges from donors to see them shorn.

The event began on St. Patrick’s Day in 2000, and the St. Baldrick’s Foundation became an independent nonprofit organization in late 2004. In its first three years of existence, the foundation has made over $16 million in grants for childhood cancer research and fellowships. In 2007, over $12.8 million was raised and over 18,000 heads were shaved at 402 events across the U.S. and beyond. For more information, please visit www.StBaldricks.org.

The Foundation’s Scientific Advisory Committee reviews applications and makes funding recommendations to the St. Baldrick’s Foundation Board of Directors. Emphasis is placed on putting every donor dollar to the best use possible to find cures for childhood cancer.

St. Baldrick’s participation may be used as a tie-breaker in funding decisions. Participation is not limited to having one’s head shaved at an event. Other participation may include: speaking at a St. Baldrick’s event, speaking with the media on behalf of St. Baldrick’s, helping the St. Baldrick’s Foundation identify volunteers from the institution’s staff or families of kids who have or had cancer, hosting a group of St. Baldrick’s volunteers at the institution to learn more about the need for research funds, and more.

Funding Types: Overview

- **St. Baldrick’s Fellows: Letter of intent by 2/1; applications by 3/31**
  The Foundation funds years 2-3 of a pediatric oncology research fellowship, with an opportunity for one additional year of funding. (Fellow’s salary & benefits)

- **Career Development Award - Scholars: Letter of intent by 2/1; applications by 3/31**
  New for 2008, these are meant to help develop the independent research of highly qualified individuals still early in their careers. ($110,000/year, 3 year minimum)

- **Research grants: Letter of intent by 2/1; applications by 3/31**
  These grants are for specific research projects which are hypothesis driven and may be either laboratory or clinical in nature. (Normally $25,000 - $50,000; may be more)

- **Infrastructure grants: No letter of intent; applications due 8/15.**
  These grants support institutions with the potential to participate significantly more in childhood cancer clinical trials, but which are smaller or have barriers to greater participation due to a lack of resources. (Normally $25,000 - $50,000)
Applicable to all funding types

Letter of Intent required by February 1st for all Fellowship, Career Development (Scholar) Awards and Research grant applications. (No letter of intent for Infrastructure grants.)

Application and required documents must be in English, submitted through ProposalCENTRAL.

No institutional overhead or indirect funding will be provided under the terms of the grant.

St. Baldrick’s Foundation funds may not be used for human embryonic stem cell research.

All application evaluations are considered confidential and are available to the Scientific Advisory Committee, the Foundation’s Board of Directors and the administrative personnel of the St. Baldrick’s Foundation only.

Each institution is eligible to submit one application in each funding type; it is possible for an institution to receive funding in more than one category.

Specific guidelines for each funding type begin on the following pages:

Fellowships: pages 3-6
Career Development Award - Scholars pages 7-10
Research Grants: pages 11-13
Infrastructure Grants: pages 14-16

Categories: Done

Joy, this email addresses your questions re the St. Baldrick’s Foundation Work Order under the CHOP agreement (I’ll address the Work Load Intensity questions in a separate email).

Regarding the period of performance: Please use 4/26/12 as the start date. I realize that, above the signature line, there also is a sentence indicating that the effective date is the latest signature date. In this case, I think it’s most appropriate for us to internally use the earlier date as the start date. The Work Order is silent on the end date of the project (and master agreement doesn’t specify the end of the term). In such a case, the best date to use as the end date, for our own internal purposes, is the date that our PI thinks that we’ll reasonably be finished with the work.

I don’t have/know the sponsor number.

Thanks,
Lisa

Subject: [som-resadmin] FW: RE: Partially Executed Agreement - St. Baldricks (Matloub)

Hi Lisa,

I need further clarification regarding the work orders for Dr. Matloub. The St. Baldricks and the Work load intensity agreement. The St. Baldrick’s agreement is fully executed and does have its own eURF #, however the details of the agreement is unclear. It does not specify a start and end date nor does it have a sponsor #. If you can please provide me with the details of the agreement that would be great. Also I do not have an eURF # for the Work Load Intensity agreement, I believe that it should have its own eURF. I would also like to confirm what the IDC should be.

Thank you,
Can you sync it with the master agreement? 9-18-13

Hi Kathy,

Based upon Lisa’s email regarding St. Baldrick’s the PI would have to give me an estimated end date for the project as the agreement does not list an end date. Please advise.

Best,
Joy
